DEERHEAD

BY LOOOK INDUSTRIES

BASIC INFO

PRODUCT NAME DEERHEAD	PRODUCT CATEGORY SCREENS
LAUNCHED 2016	DESIGN BY IVAR GESTRANIUS & KEVIN LAHTINEN

DESCRIPTION

Deerhead is not a regular acoustic panel. This three-dimensional acoustic panel is a piece of art with sound-absorbing features. It will improve the acoustics of any space, whether it is on the wall of your office or hanging over the fireplace at the hunting lodge. Even though it looks like a hunting trophy, we can assure you no animals were harmed during the development of this product. It's big, it's beautiful and in terms of sound absorption it should be quite okay.

SPECS / MATERIALS

White polyester fiber panels (6 pcs). Metal wall bracket lacquered in RAL 9004 Effect (signal black). No assembly instructions included. Can you piece together this puzzle? We tested it on a 6 year old and the test subject got it right on the first try. No pressure.

--	--

HEAD	Polyester fiber panel
BRACKET	Lacquered Steel
