DESCRIPTION

Mr. Snug is available in a low back version and a high back version. The low back version has a nice retro look and is perfect for chilling and socializing. It also goes really nicely with its high back friend. Combine both high and low sofas to create stylish, versatile and functional seating areas in public spaces and office environments. Two high back sofas can be placed opposite each other to create private, screened-off areas where people can interact with each other or just re-charge for a while.
